Volume 12/1980–1981

Aberdeen, two-year study in: cast bracing in practice, 213
Abstracts,84,175,262,347,439,516
Accident and emergency department, inner city, head injuries at,274
Adams Cowley R.: *see* Brotman S.
Aghasi M. K., Halperin N. and Axer A.: Unusual gas-forming infection with *Escherichia coli*,288
Aneurysm, superior gluteal artery, spontaenous rupture of,343
  traumatic, of internal carotid artery and rupture of duodenum following seat belt injury,158
Anti-rotation screws, with Küntscher nails, cautionary footnote regarding use of,204
Aorta, ascending, and aortic valve, traumatic rupture of,34
  penetrating wound of arch of,145
  and renal artery, compressed air emboli of, in blast injury,37
  valve of, traumatic rupture of ascending aorta and,34
Appelbaum A.: *see* Katz S.
Artery, brachial, dislocation of median nerve and, in supracondylar fractures of humerus,161
  femoral, successful repair of, in vascular trauma, using human umbilical cord vein interposition grafts,45
  injury of, associated with fractures of lower limb in childhood,460
    axillary: importance of early recognition,491
    bilateral lower limb, associated with open pelvic fracture,485
Atlas, fracture of, associated with fracture of odontoid process,310
  isolated disruption of transverse ligament of,168
Atrial rupture, traumatic, without haemopericardium, 187
Austin Moore's prosthesis, Küntscher nailing of femoral fractures associated with,252
Austin R. T.: *see also* Kamal A. S.
Axer A.: *see* Aghasi M. K.; Halperin N.

Banks J. G.: *see* Macdonald R. C.

  of fractures: simple method,258
  frames, comparative stillness,297
Extrusion, traumatic of distal femoral shaft, successful reconstruction of,331

Fahmy N. R. M.: Unusual Monteggia lesions in children,399
Femur, diaphyseal fractures of, treatment of, in children by strapping,234
  neck of, fractures of, in 'young' elderly,41

neck of, transepiphyseal fracture of,50
segmental fracture of, internal fixation of, with Küntscher–Herzog tibial nail,340
shaft of, distal, successful reconstruction of traumatic extrusion of,331
treatment of fractures of, by closed Küntscher–Herzog nailing (without intramedullary reaming),466
traumatic posterior dislocation of hip joint with fracture of head and neck of, of same side,487
Fernandes A.: Traumatic posterior dislocation of hip joint with fracture of head and neck of femur of same side,487
Fetal injury, gunshot,397
Fingers, mallett, and fractures,477
Firmin R.: *see* Naunton Morgan T. C.
Fisher T. R.: *see* Hardcastle P. H.
Fixation of comminuted fractures of distal radius, tension band wiring for,239
Fixation (*see also* External fixation, Internal fixation)
Flap wounds, pretibial: early grafting under regional anaesthesia as outpatient procedure,360
of shin,354
Foot, puncture wounds of, in children, pseudomonas osteomyelitis following,334
Forearm, Volkmann's ischaemic contracture of,148
Fracture(s) of atlas associated with fracture of odontoid process,310
avulsion, of lateral malleolus in children,165
broken bone without: case report,256
central acetabular, surgical approach for reduction and internal fixation of,31
comminuted of distal radius, tension band wiring for fixation of, 239
dynamic bone scanning in,455
external fixation of: simple method,258
femoral diaphyseal, treatment of, in children by strapping,234
neck in 'young' elderly,41
shaft, treatment of, by closed Küntscher nailing (without intramedullary reaming),466
of head and neck of femur of same side, traumatic posterior dislocation of hip joint with,487
hip, long handled 130° guide wire introducer for, using standard 130° Jewett Blade plate,510
hypoxaemia and leucopaenia after,115
isolated, of shaft of tibia, 283
of ulnar shaft in adults, non-union of,371
treatment of,365
of lower limb in childhood, arterial injuries associated with,460
mallett fingers and,477
Monteggia, repeat: unusual occurrence,202
of neck of humerus: review of late results,91
of odontoid process, fracture of atlas associated with,310
olecranan in children,207
new method of internal fixation of,101
open pelvic, bilateral lower limb arterial injury associated with,489
segmental, of femur, internal fixation of, with Küntscher–Herzog tibial nail,340
of shaft of ulna and radius with associated dislocation of radial head,471
stabilization, effects of, by internal fixation,194
supracondylar, of humerus, dislocation of median nerve and brachial artery in,161
of surgical neck, intrathoracic displacement of humeral head with,313
transepiphyseal fracture of femoral neck,50
triplane, of distal tibial epiphysis in children,393
unstable, anterior cervical spine fusion for,389
